

NeuroNest

Parent Support

The all-in-one support app
for autism families

Meet the Founder

Meropi Zervos

**Founder | NeuroNest
Parent Support**

From Mom to Founder

**When my son Dimitri was
diagnosed with autism, my
life changed forever.**

**Like so many parents, I suddenly found myself
navigating therapies, school meetings, specialists,
insurance and countless decisions while searching
for guidance, answers and hope.**

**That experience inspired me to create NeuroNest
Parent Support an all in one app that provides
practical tools, AI guidance, visual supports &
compassionate support for autism parents.**

My mission is simple:

To make sure no autism parent ever feels alone.

About NeuroNest

NeuroNest Parent Support is an all in one support app created by an autism parent, to help families navigate every stage of the autism journey through AI guidance, visual supports, practical tools, school meeting toolkits, newly diagnosed guidance & compassionate support, because no parent should have to do it alone.

“I built NeuroNest Parent Support so no autism parent has to navigate this journey alone.”

You're not alone. You're in the nest.

-Meropi Zervos

The of NeuroNest Parent Support

To the parent who feels alone... **you have found your space.**

To the mom who feels invisible, carrying the weight of appointments, therapies, paperwork and sleepless nights ... **you are seen.**

To the father who feels like he has no voice, who quietly carries the worry and wonders where he fits ... **you are heard.**

To the caregiver who feels exhausted, overwhelmed or unsure of what tomorrow will bring. To the family searching for answers, encouragement and hope... **you belong here.**

You are seen. You are heard. You are supported. Welcome to our nest. You're not alone. You're in the nest.
